

HealthNet Live with Infor Financials

NEW YORK – January 12, 2018 – [Infor](#), a leading provider of industry-specific cloud applications, in conjunction with Bails & Associates, LLC, an Infor CloudSuite specialized service and delivery partner, today announced the successful “go-live” of an Infor CloudSuite Financials implementation for HealthNet. HealthNet is a Federally Qualified Health Center that provides affordable health services to the medically underserved in Indianapolis, IN. HealthNet provides a wide range of patient services, including medical, behavioral health, dental, OB/GYN and social services. In 2016, HealthNet centers accounted for over 270,000 patient visits.

Project Highlights

- Infor Applications implemented included Global Ledger, Accounts Payable and Cash Management.
- HealthNet implemented Infor CloudSuite Financials in a multi-tenant environment.
- HealthNet was able to take full advantage of new, powerful “out-of-the-box” Infor CloudSuite functionality, including invoice approval routing and Configuration Console.
- The HealthNet implementation had an aggressive timeline which made for a challenging project. The dedication and collaboration of the Infor, Bails and HealthNet teams was extraordinary and crucial to the success of project.

“The Bails consulting team did a great job for us in a short period of time and we appreciate their commitment to our project” said Larry Flick, CFO of HealthNet. “We were genuinely impressed by their knowledge and support.”

Bails FSM Application Consultant, Mark Borsheim, shared “The clients’ use of Infor CloudSuite modules has been very positive. While many clients have enjoyed the functionality of Lawson v9, they prefer Infor CloudSuite’s modern look and feel, including the transition from form numbers to menus under roles.”

“We are pleased to have such a deeply skilled partner in Bails & Associates, whose significant project expertise and Infor product knowledge ensured a successful implementation for a client with an aggressive timeline to success,” said Neil Wilson, VP Global Alliance Partners at Infor. “This multitenant environment with Infor CloudSuite Financials enables HealthNet to take full advantage of the robust, out of the box functionality almost immediately. That is tremendous value for any client looking to modernize like HealthNet.”
